

Art Builds Communities (ABC) is an art outreach program which is part of the Center for Visual Art (CVA), a division of Metropolitan State College's Art Department. Since its inception in 1995 the ABC program has helped Denver's inner city youth ages 6-12 to reject destructive behaviors and develop self-esteem, confidence and pride. ABC provides an opportunity for positive, constructive use of leisure time through multi-cultural art projects that promote an understating and appreciation of one's own culture and that of others.
